FOREWORD

Located four miles south of Hartford on Brimfield Road, just west of Wolcott Hill Road. We have listed a limited number of trees and plants, mainly of the better and rarer kinds, but the "every day" varieties may also be had at the Nursery.

We shall be glad to have your inquiries. It is impossible to keep sizes and prices up to date even for a few days especially on scarce items.

Prompt service and personal attention given to all orders. Small parcels up to three or four pounds will go parcel post, larger bundles go express collect. Add fifteen per cent for packing charges. Soak roots on arrival, keep from air while planting, mulch around plant if possible, and keep top well sprayed with water until they bud out. Plant tender trees in well drained, very sheltered position. Avoid low frost pockets and windy spots.
